Safety Guide

To ensure safe and proper usage of this product, please refer to the following safety guide before operating the device.

1. **Read the manual carefully:** Read and follow the user manual before using the device.

2. **Avoid high temperatures:** Avoid exposing the device to high temperatures, humidity, or direct sunlight. Keep the device in a cold, dry area.

3. **Keep away from water:** To avoid damage, keep the device away from water and other liquids. It can damage the device.

4. **Precautions for potential hazards:** Take appropriate precautions if you are aware of any potential hazards or risks related with the specific environment you are monitoring.

5. **Preventive measures:** If the gadget detects high levels of pollutants or other potentially hazardous substances, take precautionary measures such as opening windows or leaving the area.

6. **Keep out of reach of children:** Air quality monitors should be kept out of reach of children to prevent accidental ingestion or damage.

7. **Connecting to the network and app:** When connecting to the wifi network and the AQI app, kindly read the instructions carefully. Do not connect to any incompatible network or app.

8. **Accessories:** Use accessories provided by Prana Air only. Use of other accessories may damage the device.

9. **Turn off the device when not in use:** To extend the battery life of the device, make sure to turn it off when not in use.

10. **Use qualified repair services only:** It is important to only use qualified repair services to fix the device.

Safety and maintenance

The safety and maintenance section of this product manual provides important information on how to use and maintain the device in a safe and reliable manner.

1. Having a comprehensive understanding of the safety and maintenance instructions for the device can enable you to use the device more safely and efficiently, and help to extend its lifespan as much as possible.

2. Make sure to turn on the device properly and assemble its accessories correctly.

3. The air quality monitor should be cleaned regularly to remove dust and debris from the sensors. Do not clean the device with chemical cleaners. To clean the device, use a soft cotton fabric and clear water.It can damage the device.

4. The device is not waterproof. Please keep it and all the accessories dry. Excessive moisture may corrode the PCB.

5. The battery life of the air quality monitor should be monitored regularly. Charge the device as needed to ensure accurate readings

6. If the air quality monitor is not functioning properly, do not attempt to repair it yourself. Contact us or a qualified repair service to diagnose and repair any issues.

7. Check for software updates for the air quality monitor regularly. Installing the latest updates can help improve the accuracy of the device.

8. Store the air quality monitor in a cool, dry place when not in use. This will help prevent damage to the device and extend its lifespan.

9. Do not drop, shake, or knock the device. Do not use the device without the table mount or wall mount. Violent usage may lead to screen breakage or damage the internal circuitry.

10. Do not paint the device with paints or other chemicals. It may affect the accuracy and normal operation of the device.

Service Guidelines

This section outlines the recommended maintenance procedures and service requirements for ensuring the optimal performance and longevity of the device.

A. Warranty Terms

1. The device comes with a 1-year warranty against manufacturing defects.
2. A valid proof of purchase is required to be eligible for repairs or replacements.
3. Warranty will be void in case of physical damage.

B. Sending and Retrieving the Device for Repair

1. The customer must provide the necessary information, such as name, contact number, and fault description, to complete the repair work order.
2. After repair, the customer must present the Acknowledgement receipt to retrieve their device and request a delivery receipt.
3. If payment is made by cheque, the device can only be retrieved after the cheque has cleared.

C. Warranty Description

1. The warranty covers only the device and its accessories under normal usage. No warranty will be provided if the device is damaged due to any of the following reasons:

   1.1. Warranty period has expired.

   1.2. No valid proof of purchase is provided, or the purchase date is beyond the warranty period.

   1.3. The content on the valid proof of purchase is different from the actual product or has been altered.

   1.4. The device is damaged due to improper usage or maintenance.

   1.5. The device is damaged due to moisture, liquids, or falling, or has been repaired or disassembled by an unprofessional.

   1.6. Damages due to force majeure.

   1.7. Normal wear and tear *(such as outer cover, buttons, and screen).*

   1.8. Device damages caused by using non-original accessories *(such as adapters, data cables, wall mounts, or table stands)* are not covered by the warranty.

2. Both national and international services can be availed only at Prana Air's office.

3. All replaced parts, components, and accessories during warranty services will be kept by the Prana Air service center.
